

## ANOTHER NEW ENTERPRISE.

### Big Coffee Roasting Plant Established in San Antonio.

The Western Coffee Company has just completed the installation of their machinery for their new coffee roasting plant, located on Buena Vista and Comal Streets.

This concern is fully equipped to handle a volume of business by reason of their up to date machinery, which is most modern in every particular. All coffees are thoroughly cleaned before roasting, and all objectionable chaff is eliminated after the roasting process, which insures the best results and a wholesome product.

The Western Coffee Company expects to take care of the coffee trade of Southwest Texas, and San Antonio should feel proud of this additional enterprise, which is the largest of its kind in the State.
